<p><b>Discussion:</b></p> <p>Following on from the NESTA work that we undertook at the start of the semester I met with Chris for what was meant to be a follow up meeting regarding progress made since the sessions.</p> <p>Due to working on projects due for launch I hadn't managed to do a great deal since the sessions, working instead on getting Get Invited ready for the university to use to ticket for their festival.</p> <p>As a result the meeting became more of a discussion and reflection upon in order to organise some of what I have planned for my future and get it written down.</p> <p><b>Action Agreed:</b></p> <ul style="list-style-type: none"> <li>•</li> </ul>

<p><b>Discussion:</b></p> <p>Kyle and myself met with Chris to discuss our planned participation at Creative Camp 2012. We both intended to talk on matters that related to us, but as our work so often impacts each other we decided to have a single tutorial with Chris.</p> <p>Kyle was guided towards a talk on how every product can tell a story, something that his work has been leaning towards. I knew what I would want to talk about, and Chris felt the same, that I should talk on the topic of simplicity, one of my core values in the work that I do.</p>		
<p><b>Action Agreed:</b></p> <ul style="list-style-type: none"> <li>• Prepare and rehearse talk for Creative Camp.</li> </ul>

<p><b>Discussion:</b></p> <p>Had a meeting with Chris regarding my Creative Industries Viva. Each student had been asked to pick a possible topic for our vivas to discuss with Chris. I chose the topic of <b>Collaboration</b> as it has been key to my work whilst on the MA.</p> <p>In the meeting with Chris I covered the various aspects that I wanted to cover, hinting at a possible relation to music and how all the parts of a musical piece come together, but allow each part to have moment to shine, just like collaboration.</p> <p>Over the course of the meeting we were able to refine some aspects of what I had considered and focus the talk slightly better.</p> <p><b>Action Agreed:</b></p> <ul style="list-style-type: none"> <li>• Work towards Viva</li> </ul>

<p><b>Discussion:</b></p> <p>This meeting served more as an opportunity to get feedback on the work I have been doing outside of Get Invited, in particular on Simply Written.</p> <p>On the whole feedback was very positive and Chris requested I set him up with an account. Setting up his account went smoothly, but when he tried to use the system he encountered a series of issues that I had to resolve.</p> <p>In addition to the more technical feedback Chris offered some advice on the overall design of the site, a rather neglected aspect of the system to date.</p> <p><b>Action Agreed:</b></p> <ul style="list-style-type: none"> <li>• Fix issues in Simply Written System that Chris encountered.</li> <li>• Consider design changes.</li> </ul>

<p><b>Discussion:</b></p> <p>Discussion focused primarily on my concerns relating to my Masters Project Proposal, as I wasn't sure that I had anything that was on a grand enough scale to really quality. Through chatting with Chris I was able to realise that this wasn't the case, that I have two projects that I will be developing, and either of these could be of a Masters Project level.</p> <p>I have a tendency to focus too much on one aspect of what I do, and ignoring a lot of the additional aspects that impact upon my work. Whilst I have gotten better at taking a step back and looking at things sometimes I still need an external view on things in order to put things back in perspective.</p> <p><b>Action Agreed:</b></p> <ul style="list-style-type: none"> <li>• Stop worrying about not having Masters level work.</li> </ul>
